

Ecosphere

Livestock and the functional habitat of vicuñas in Ecuador: a new puzzle

Brian E. McLaren, Douglas MacNearney, and Carlos A. Siavichay

Appendix S1

Table S1. Plant species in three regions of the Chimborazo Faunal Production Reserve classified as forage and non-forage plants based on vicuña bites. Species names in boldface were found uniquely in one of Lists A through C, referring to the habitat structures and conditions described in the paper. Five nearly ubiquitous species, marked with asterisks (*Bidens humilis* occurring only in upland areas), were also the most selected by vicuñas according to Ivlev's selectivity index.

Rainy or windward (RW)	Rain shadow (RS)	Xeric páramo (XP)
<b>List A: Forage plants in upland areas where vicuñas occurred without livestock</b>		
<i>Astragalus geminiflorus</i>	<i>A. geminiflorus</i>	<i>A. geminiflorus</i>
<i>Bidens humilis</i> *	<i>Azorella pedunculata</i>	<i>A. pedunculata</i>
<i>Calamagrostis intermedia</i> *	<i>B. humilis</i> *	<i>B. humilis</i> *
<i>Colobanthus quitenensis</i>	<i>C. intermedia</i> *	<i>C. intermedia</i> *
<i>Hypochaeris sessiliflora</i>	<i>Cerastium floccosum</i>	<i>H. sessiliflora</i>
<i>Oritrophium peruvianum</i>	<i>C. quitenensis</i>	<sup>a</sup> <i>P. annua</i> *
<i>Paepalanthus ensifolius</i> *	<i>H. sessiliflora</i>	<i>P. ensifolius</i> *
<sup>a</sup> <i>Poa annua</i> *	<sup>a</sup> <i>P. annua</i> *	<i>S. ichu</i> *
<i>Stipa brachychaeta</i>	<i>P. ensifolius</i> *	<i>Valeriana rigida</i>
<i>Stipa ichu</i> *	<i>Plantago rigida</i>	<i>W. pumila</i>
<sup>a</sup> <i>Trifolium repens</i>	<b><i>S. brachychaeta</i></b>	
<i>Werneria pumila</i>	<i>S. ichu</i> *	
	<i>W. pumila</i>	

---

**List B: Forage plants in upland areas where vicuñas occurred with livestock**

<i>Astragalus geminiflorus</i>	<i>A. geminiflorus</i>	<i>A. geminiflorus</i>
<i>Bidens humilis*</i>	<i>Azorella pedunculata</i>	<i>A. pedunculata</i>
<i>Calamagrostis intermedia*</i>	<i>B. humilis*</i>	<i>B. humilis*</i>
<i>Cerastium floccosum</i>	<i>C. intermedia*</i>	<i>C. intermedia*</i>
<sup>b</sup> <i>Distichia muscoides</i>	<i>C. floccosum</i>	<i>H. sessiliflora</i>
<i>Eryngium humile</i>	<i>Hypochaeris sessiliflora</i>	<sup>a</sup> <i>P. annua*</i>
<i>Geranium multipartitum</i>	<sup>a</sup> <i>P. annua*</i>	<i>P. ensifolius*</i>
<i>Paepalanthus ensifolius*</i>	<i>P. ensifolius*</i>	<sup>a, b</sup> <b><i>Polylepis reticulata</i></b>
<sup>a</sup> <i>Poa annua*</i>	<i>Plantago rigida</i>	<i>S. ichu*</i>
<i>Stipa ichu*</i>	<i>S. ichu*</i>	<i>Valeriana rigida</i>
<sup>a</sup> <i>Trifolium repens</i>	<i>W. pumila</i>	<i>W. pumila</i>
<i>Werneria pumila</i>		

---

**List C: Forage plants in wetland areas where vicuñas occurred with livestock**

<i>Alchemilla pinnata</i>	<i>A. pinnata</i>	<i>A. pinnata</i>
<i>Calamagrostis intermedia*</i>	<i>Azorella pedunculata</i>	<i>C. intermedia*</i>
<i>Colobanthus quitensis</i>	<i>C. intermedia*</i>	<i>C. quitensis</i>
<sup>b</sup> <i>Distichia muscoides</i>	<i>E. humile</i>	<i>Cerastium floccosum</i>
<i>Eryngium humile</i>	<i>G. multipartitum</i>	<i>E. humile</i>
<i>Geranium multipartitum</i>	<i>Gunnera magellanica</i>	<i>G. magellanica</i>
<i>Oritrophium peruvianum</i>	<sup>a</sup> <i>P. annua*</i>	<i>G. multipartitum</i>
<i>Paepalanthus ensifolius*</i>	<i>P. ensifolius*</i>	<i>O. peruvianum</i>
<sup>a</sup> <i>Poa annua*</i>	<i>Plantago rigida</i>	<sup>a</sup> <i>P. annua*</i>
<i>Stipa ichu*</i>	<i>S. ichu*</i>	<i>P. ensifolius*</i>
	<i>Valeriana rigida</i>	<i>P. rigida</i>
	<i>W. pumila</i>	<sup>a, b</sup> <i>Polylepis reticulata</i>
		<i>S. ichu*</i>
		<sup>a, b</sup> <i>Taraxacum officinale</i>
		<sup>b</sup> <i>Trifolium amabile</i>
		<sup>a</sup> <i>Trifolium repens</i>
		<i>V. rigida</i>
		<i>W. pumila</i>

---

**List D: Non-forage plants frequently encountered**

*Achyrocline alata*, *Chuquiraga jussieui*, *Culcitium nivale*, *Huperzia crassa*, *Jamesonia goudotii*,  
*Loricaria thuyoides*

---

Notes:

<sup>a</sup> Introduced species.

<sup>b</sup> Species unique to this region.
