

- Granitic intrusive
- Mafic intrusive: Lamprophyre, gabbro
- Shebandowan-type greywacke, arkose, conglomerate
- Shebandowan-type breccio-conglomerate, pigmented
- Keewatin-type felsic volcanic
- Keewatin-type mafic volcanic
- Iron formation

- x Area of outcrop: large, small
- x Cleavage: inclined, vertical
- x Bedding: inclined, vertical
- x Schistosity
- x Younging direction
- x Antiform to south
- x Geological contact, approximate
- x Inco-Shebandowan Mine
